

have now unmasked themselves, and have tramped upon the Union and on their oath of allegiance to the King. As soon as possible, all Norwegians employed in our diplomatic service must be removed. Sweden can be represented by men belonging to a country which organizes a revolution, dethrones its King and breaks all of union."

UNION DISSOLVED. (BY THE ASSOCIATED PRESS—A.M.) CHRISTIANIA, June 7.—King Oscar's frown to sanction the bill passed by the Storting providing for a separate naval service for Norway culminated today in the passage of a resolution by the Storting, declaring the dissolution of the union of Sweden and Norway and that the King had ceased to act as King of Norway. Although the action was anticipated, it caused considerable excitement in this city, account of the anxiety as to what the King would take.

The crisis became acute May 26, when His Majesty, after three months at, during which the regency was added to Crown Prince Gustav, resumed the reins of office. The Council of State immediately submitted to him a Consular Bill which, May 28, he refused to sanction, arguing that any nation must receive the sanction of the Council of State.

The Norwegian Council of State thereupon resigned, and a King refused to accept the resignations, as, in view of the state of public opinion, it was impossible to form a new government. Demonstrations were held throughout the country during the action of the Council of State. The Consular Bill, while of little importance, was deemed to open the whole question of reign affairs which Norway desires manage independently of Sweden.

The Storting has empowered the present Council to act as a government of Norway until further notice, and exercise the power heretofore pertaining to the King.

An address to the King was adopted, clearing that no ill-feeling was entertained against him, his dynasty or the realm, and asking him to operate in the selection of a young prince of the house of Bernadotte to copy the throne of Norway.

It is not anticipated that King Oscar will consent to any Prince of the house of Bernadotte accepting the Norwegian crown. Should the King refuse, there is a possibility that the throne may be offered to Prince Christian of Denmark. The people of Norway largely sympathize with the Norwegian demands.

At the opening of the session, the government informed the Storting that it relinquished office from today.

Storting thereupon without debate passed the following resolution:

"Your Majesty: Whereas, all the members of the Council of State have laid down the offices and whereas, His Majesty, the King, has declared himself unable to establish a new government for the country and whereas, the constitutional royal power thus becomes inoperative, the Storting authorizes the members of the Council of State who retired today to exercise all further notice as the Norwegian government the power appertaining to the King.

"It was under Norway's constitution that existing laws that those changes are made which are necessitated by the fact that the union with Sweden under one King is dissolved in consequence of the King having ceased to be a King.

"It was under Norway's constitution that the steps which those changes are made which are necessitated by the fact that the union with Sweden under one King is dissolved in consequence of the King having ceased to be a King.

"The course of developments, which have proved more powerful than the desire and will of the individual, has led to this result.

The step entered upon in 1814 has, from first hour, been differentiating, interested by the two nations, both with regard to spirit and letter.

The difference in the interpretation of the character of the union as provoked much misunderstanding between the two peoples, and has caused much friction in the interpretation which, during the recent negotiations which, during the recent negotiations between the countries, has been laid down by Sweden against Norway.

The Norwegian people were bound to perceive the injury to their institutional right, their independence and their national honor.

The view was justified, so long as it could contribute to the welfare and happiness of both peoples, while maintaining their independence as sovereign states.

KING OSCAR SHAKEN.

(BY THE ASSOCIATED PRESS—P.M.) STOCKHOLM, June 7.—King Oscar, whose health is very good, is much shaken by the crisis.

Telegrams from the provinces tonight show that the public view the developments with astonishing calmness, almost amounting to indifference.

The Council of State has decided to call an extraordinary session of Parliament, and probably no action will be taken before Parliament meets.

Fridtjof Nansen, the Arctic explorer, who some time ago entered actively into the discussion, has said to the Associated Press today that he desired no official post in the new government. It is understood, however, that Nansen may be appointed a special envoy to the foreign powers, in order to secure their recognition of Norway's new status.

The explorer said: "No doubt there are many difficulties ahead of Norway and she is prepared for opposition abroad. In fact, we expect the worst, and will not be surprised at whatever happens. Personally, I have only good things to say of King Oscar, and will continue to praise his intelligence and his many excellent qualities. There is no doubt, however, that he himself suspended his rights as King of Norway."

M. Michaelson, the retiring Foreign Minister, accepted in behalf of the government, "the honorable and difficult task" with which the Storting has entrusted him.

Five Social Democrats dissented on the address to the King.

After the Storting had adopted the solutions, Premier Borner, in a short speech, emphasized the serious importance of the step taken, and concluded with saying: "May God protect the Fatherland." The whole assembly joined in the Premier's verdict.

The new government will distribute the portfolios this evening.

Arctander, Minister of Congress,

will probably take the Foreign Office portfolio.

Perfect order prevailed throughout the city. Crowds assembled all day in front of the Storting buildings and vociferously cheered the members of the government as they left.

The dissolution of the union between Sweden and Norway has been pending for some time and had its growth in the desire, which grew stronger as time passed, for the establishment of separate consular systems for the two countries. King Oscar recently vetoed at Stockholm the measure presented to him by the Council of State providing for separate consular representation, and the Norwegians maintained that the King, by so doing and partly by his absence from Norway had suspended his rights and duties as King of Norway.

One of the causes for the desire in Sweden and Norway for separate consular systems was the fact that Sweden is protectionist and Norway is for free trade, and also because of Norway's extensive sea trade and other divergencies of international interest.—Associated Press.]

KING OSCAR PROTESTS.

(BY THE ASSOCIATED PRESS—A.M.) STOCKHOLM (Sweden) June 7.—King Oscar has sent a telegram to Premier Michaelson as follows:

"Have received the communication of the Council of State, and record the most decided protest against the method and action of the government."

REFUSES THE CROWN.

(BY THE ASSOCIATED PRESS—P.M.) LONDON, June 7.—The Stockholm correspondent of the Standard says that King Oscar has refused the Norwegian crown for his son.

BRITISH SYMPATHY.

(BY THE ASSOCIATED PRESS—P.M.) LONDON, June 8.—(By Atlantic Cable) The revolution in Norway, although anticipated and peacefully effected, has come to Europe with unexpected suddenness, and the question is asked with some anxiety whether it will mean immediate complications. Had Russia not been involved in a difficult war in the Far East, it is doubtful whether Norway would have taken the present momentous step, which is not likely to be regarded with approval by European powers. Emperor William's omission of his customary tour of Norway this year seems to indicate his disapproval of the Norwegian policy, and the fact that the coup d'état is not unlikely to eventuate in the establishment of a Norwegian Republic would alone be a reason why the step would not commend itself to the monarchial powers.

It is nowhere thought that King Oscar will consent to a junior member of his family becoming King of Norway. This proposal is regarded as an attempt to palliate the blow to the deposed King, and the opinion of Englishmen is that the suggestion is quite impracticable.

In their editorials this morning London newspapers comment on the extreme seriousness of the step Norway has taken, expressing the hope that there may yet be time for Norwegian leaders to find a way out of the difficulty.

The older financier was on his feet in an instant, his rage equaling that of Schiff.

By the time the report was read, Schiff was quivering with indignation. He leaped on his feet and shouted, shaking his fist at Bliss: "I'd like to knock your head off. If you were not so old, I would."

The older financier was on his feet in an instant, his rage equaling that of Schiff.

Bliss, with hands up in approval of Schiff's ring fashion, "I've taken care of myself for seventy-three years, and I guess I can do it now."

The two financiers were rushing toward each other with faces red and sweating. A. Crossatt, president of the Pennsylvania Railroad, who stands 6 feet four inches, unshod, grabbed Bliss around the waist, and a number of directors gathered around him. Bliss, who had been refused to yield his seat until his less intelligent opponent had resumed his seat. Then he also sat down. He was greatly agitated by the scene, and later, when he handed his resignation as director to President Alexander, he said: "This has been the most painful incident of my life."

COLOSSAL SCANDAL.

STATE OFFICIAL AMAZED.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, June 7.—(Exclusive Dispatch.) The most colossal scandal uncovered in the affairs of the Equitable Life Assurance Society has been carefully investigated by State Sheriff Francis Hendricks, assisted by Frederick D. Kilburn, superintendent of the State Banking Department. The sum involved is much nearer \$10,000,000 than \$1,000,000. The scandal has been spreading from the Equitable Life into the Equitable Trust Company, Superintendent Hendricks was unable to follow this particular scandal to a final issue, because it led into the Equitable Trust Company, on which his less intelligent opponent had resumed his seat. Then he also sat down. He was greatly agitated by the scene, and later, when he handed his resignation as director to President Alexander, he said: "This has been the most painful incident of my life."

TO REMAIN AT MANILA.

Czar Sends Orders Relative to Three Cruisers.

Much Resentment Against Ruling in Matter.

St. Petersburg Papers Insulting the President.

(BY THE ASSOCIATED PRESS—P.M.)
MANILA, June 8.—[Pacific Cable.] Rear-Admiral Enquist received at 1 o'clock this morning the following cable from St. Petersburg:

"Remain at Manila at the disposition of the American government. Affect repairs as much as possible."

"NICHOLAS."

Gov.-Gen. Wright has requested Rear-Admiral Train to arrange for the disposition of the Russian warships and their officers and crews.

ADMIRAL TRAIN IN CHARGE.
(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, June 7.—Gov.-Gen. Wright cabled the War Department from Manila today in reply to his instructions of yesterday, relative to the Russian ships.

Admiral Train has been instructed by Gov.-Gen. Wright to take charge of the Russian vessels in the event that they do not leave Manila within the twenty-hour limit which period, it is estimated will expire by 6 o'clock this evening Washington time. As the Russian admirals report that his ships are unable to go to sea their intention by that time will be an accomplished fact.

COAL FOR RUSSIANS.

(BY THE ASSOCIATED PRESS—A.M.)
MANILA, June 8, Thursday, 1 a.m.—The signal station at Corregidor reports that the German steamer Gearde is passing in with coal for the Russians.

The students of the Philippine Law School have voted a congressional motion to the Japanese because of their victories, asserting that they establish the prestige of the Orientals.

RESENTMENT AGAINST AMERICA.
(BY THE ASSOCIATED PRESS—A.M.)

ST. PETERSBURG, June 7.—The Russian press, notably the Novoe Vremya and the Russ, the latter frequently reflecting the views of the Foreign Office, display a great deal of resentment against the United States for enforcing the twenty-hour rule in this case of the three Russian cruisers at Manila.

The Russ quotes the American neutrality regulations and contends that President Roosevelt, in applying the principle that only injuries received during a skirmish and not in a battle can be considered as just cause, narrows the American regulations but infringes the recognized principles of international law. This paper declares it has official warrant for the statement that representations have been made to Washington on the subject.

PRESIDENT CONTAMINATED.

The Novoe Vremya is exceedingly sarcastic. After a slap at Great Britain for the alleged manner in which her vessels dogged the Russian fleet from Japan to Korea, Cronsstadt, and for trying to force all the powers to accept her interpretations of the rules of neutrality, the Novoe Vremya declares that the President, whom it refers to as "Mr. Roosevelt," contaminated by England's example, arbitrarily interprets his own rules in a most flagrant manner.

"Mr. Roosevelt takes full advantage of the fact that Russia is helpless and powerless to do more than protest. The Japanese Minister is reported to have hastened to express his gratitude to America for this act of impartiality which is partial to Japan. We trust Mr. Roosevelt is satisfied with his success."

UNFORTUNATE UTTERANCE.

The admiralty, it can be stated, is reconciled to the internment of the three Russian cruisers at Manila, but opposes the principle that the ships and the latest available record in themselves of service to their country, Gen. Henry Van Ness Boynton, soldier, journalist and publicist, was buried today at the National Cemetery at Arlington.

The main armor belt is intact. The turret armor generally withstands the battering from shells, although two of the 6-inch turrets were rendered useless by shots which struck close to their base. Some smaller guns were dismounted and smashed.

A gruesome sight was a bulkhead bespattered with blood, fragments of flesh and hair.

The Orel is sound structurally, although it will be necessary to practically reconstruct her from the waterline up.

The condition of the ship shows that she underwent a terrible ordeal before they surrendered.

GEN. BOYNTON'S FUNERAL.

WASHINGTON, June 7.—With distinctive military and civic honors, the former befitting his rank in the navy and the latter his notable record in other spheres of service to his country, Gen. Henry Van Ness Boynton, soldier, journalist and publicist, was buried today at the National Cemetery at Arlington.

The ceremonies, devoid of ostentation in accordance with the wishes of Gen. Boynton, were attended by a host of friends he had made in our naval service and the latter's notable record in other spheres of service to his country, Gen. Henry Van Ness Boynton, soldier, journalist and publicist, was buried today at the National Cemetery at Arlington.

The result was that today Mr. Meyer went to Tsarsko-Selo in full uniform and was received in special audience by the Emperor. Upon his return to St. Petersburg this afternoon Mr. Meyer hastened to the embassy, whence he sent a long cipher dispatch to Washington.

CAPTAIN'S NARROW ESCAPE.

(BY THE ASSOCIATED PRESS—A.M.)

MANILA, June 7.—No deaths have been reported among the Russian officers or sailors since the arrival here of the three cruisers commanded by Admiral Enquist.

YOYAMA IS PUSHING SLAVS INTO MONGOLIA.

(BY DIRECT WIRE TO THE TIMES.)

TOKIO, June 7.—[Exclusive Dispatch.] Bulletin from Field Marshal Yoyama's headquarters in the field received by the Imperial War Board late this afternoon show that important fights preliminary to the expected battle have been begun and that the Japanese commander is pushing the whole Russian army into Mongolia.

The Russians in the past forty-eight hours have been defeated at several strategic points, and dispatches indicate that they are retreating in confusion toward the Mongolian desert.

Marshal Yoyama has thrown his left northward and northwestward even more rapidly than was expected from dispatches received earlier in the week and in the latter half of last week.

Gen. Yoyama seems to have hastened the advance of the Japanese by several southward demonstrations.

All the more effective forward movements by the Japanese reported in today's bulletins were made as sequel to repulses of the Russians.

The Japanese left now extends from a point eleven miles northeast of Chantoo to the north bank of the Liao River, northwest branch, and between those points it bulges northward to the junction of the Tie Pass-Chinchiau and the Hukien-Chinchiau military roads. It therefore presents a semi-circular front, with its right resting on the railroad and its

left on the river, and its frontage is about thirteen miles.

The War Office is silent as to changes in the disposition of the Marshal's center and right, but it is taken for granted these divisions of his forces have been moved forward to cooperate with his left.

It apparently is the intention of Yoyama either to force Linevitch toward the great desert, in the heart of Mongolia, where the Russians would have at the best a poor base of supplies, or else to bisect the Russian right, and through a corresponding flanking movement by the Japanese right, to envelop the Russian center and left.

It is plain the Field Marshal does not intend to permit any Russian movement in force toward the east. His outlying brigades command all available roads in the direction of Kirin and it is understood he has extra mobile columns ready to operate against the roads to Harbin. Linevitch, in consequence, is likely to have to accept battle in perhaps the worst position possible for the Russians, in the region that does not appear to require precipitate entry into a country where it will be difficult for him to maintain his lines of supply and even to keep in touch with St. Petersburg.

Yoyama evidently has begun a vigorous campaign, which logically can end only in the annihilation or surrender of the Russian army, unless hostilities be suspended by diplomatic negotiations.

THE GREAT WAR.

(Continued From First Page)

Cassini's report has reached Tsarsko-Selo.

It can be stated emphatically that in transmitting a faithful report of what occurred at the White House last Friday afternoon Count Cassini emphasized the sympathetic and friendly frankness with which the President, speaking informally and personally, expressed his strong desire for peace. It is generally realized here that the importance of that report can scarcely be overestimated.

On his way to the main deck another shell exploded near Capt. Nebolsin, commander of the Aurora, on which vessel Enquist hoisted his flag after the Czar had been received. While Capt. Nebolsin was in the conning tower a shell exploded there, but did not injure him. Later he left the bridge of the Aurora in charge of the first officer and went to the main deck in order to supervise the work of subduing the flames, the Aurora being on fire, and of caring for the wounded and killed.

On his way to the main deck another shell exploded near Capt. Nebolsin, and some of the fragments hit him, three in the head, one in the right leg and one in the right ankle. The captain was stunned for a few moments, but recovered and descended to his cabin after the wounded. He then returned to the bridge and continued to command the Aurora, without receiving any surgical aid. He never gave up the command of the vessel at any period of the fight or while on her way here.

Chief Surgeon Kravtchenko praises the captain highly for his courage and endurance.

RUSSIANS BOARD STEAMER.
(BY THE ASSOCIATED PRESS—A.M.)

NAGASAKI, June 7, 5 p.m.—The British steamer Clunium, chartered by the Mitsui Bussan Steamship Company of Tokio, bound from Shanghai for Kobe, Japan, was stopped, June 2, eighty miles from the bell buoy of the entrance to Woosung, by the Russian transport Rion.

A board of inquiry, after the steamer's papers had been examined, removed her hatchets and threw overboard 411 bags of cartridges, 125 bags of cotton and twelve boxes of antimony.

The Russians left suddenly, stating that the steamer was released. It was supposed that they received a wireless message announcing the approach of Russian warships.

FORTY GAPPING HOLES IN HULL.

BATTLESHIP OREL RECEIVED TERRIBLE BATTERING.

Condition of Russian Warship is Terrible to Behold, Although Vessel Is Sound Structurally—Crew Underwent Frightful Ordeal.

TOKIO, June 7.—[By Pacific Cable.] A correspondent of the Associated Press has been permitted to inspect the Russian battleship Orel, now lying at Mazuru.

The Orel received a terrible battering. Her hull shows forty gaping holes pierced by large shells, and many smaller holes, while the superstructure, her upper works and upper decks were riddled by shells, steel fragments and splinters.

The starboard forward 12-inch gun was smashed ten feet from the muzzle, either by shell or by explosion. A fragment of the gun went over the bridge, smashing the rail, and, after carrying away the breech of a twelve-inch gun, buried itself in the signal locker.

From the main deck upward the condition of the vessel was terrible to behold. Steel partitions were smashed the gangway was broken and stanchions wrecked. Gear of various kinds covered the decks, and the state of the ship was such that the ship's crew several times. The mark of the flames increased the scene of desolation.

The main armor belt is intact. The turret armor generally withstands the battering from shells, although two of the 6-inch turrets were rendered useless by shots which struck close to their base. Some smaller guns were dismounted and smashed.

A gory scene was a bulkhead bespattered with blood, fragments of flesh and hair.

The Orel is sound structurally, although it will be necessary to practically reconstruct her from the waterline up.

The condition of the ship shows that she underwent a terrible ordeal before they surrendered.

DISAPPOINTED.

The Novoe Vremya is exceedingly

sarcastic. After a slap at Great Britain for the alleged manner in which her vessels dogged the Russian fleet from Japan to Korea, Cronsstadt, and for trying to force all the powers to accept her interpretations of the rules of neutrality, the Novoe Vremya declares that the President, whom it refers to as "Mr. Roosevelt," contaminated by England's example, arbitrarily interprets his own rules in a most flagrant manner.

PINS ROSE ON DEATH PILLOW.

Dramatic Attempt at Suicide
of Mrs. Guttzeit.

She Loved Former Husband
Who Killed Himself.

Number Two Much Exercised
by Terrible Affair.

A suicide that was to have been a
beautiful work of art was attempted in
this city yesterday by a lovely young German woman.
She went to greet Death attired like
a princess of the blood royal, loaded

MRS. PAUL GUTTZEIT.

with jewels and fru-frouting with
silken garments. Upon the pillow which was to support her head as she died, she pinned a long-stemmed American Beauty rose.

Her plan was to shoot herself to the heart, but her instinct for artistic adornment was better than her knowledge of anatomy. She missed her heart and shot her backbone, making herself a repulsive cripple if she lives. It might have been Ibsen's Hedda Gabler who did this suicide; like Hedda, Mrs. Paul Guttzeit will probably bitterly complain, "Everything I do turns out to be ridiculous!"

To all for one's heart and shoot one's backbone is a hideous rallying on the part of fate.

Mrs. Guttzeit says that she wanted to die because she loved her dead first husband. She was married only two weeks ago to Mr. Guttzeit of San Pedro. Her first husband was Fred Mack, a Colorado mining man who killed himself at the Parker House, East Park, after two years of marriage.

Mack was a prominent Elk and a mining man well known through Colorado; he came here with his wife from Leadville; he shot himself in the mouth one Sunday morning early in April.

She says that he killed himself because he had been unable to get to him and to be buried by his side. They were only married last January. In view of her speedy second marriage, this story sounds decidedly unconvincing.

She tried to kill herself in the same house in which her first husband took his life, but missed it by one door.

At 4 o'clock yesterday afternoon, a magnificently dressed woman in black silk and sparkling with diamonds came up the stairs of No. 427 East Fifth street, a small hotel, and asked for a room. She gave her name as Mrs. Guttzeit and said she wanted to stay all night. She seemed agitated.

A few minutes after she had been assigned to her apartments a pistol shot was heard and some of the boarders ran into her room.

She was lying motionless on the bed, her face beside the long-stemmed rose, fully dressed, with a smoking pistol by her side. She was waiting to die and politely requested the people not to save her. In about ten minutes she was bound for the Receiving Hospital

in an ambulance on a dead run and the doctors were going for the bullet.

An examination was made by Drs. Quint and Goldin, and a spinal twisted 28 degrees, bullet was taken from her back. It had entered below her heart and gone clear through crashing two of the dorsal vertebrae.

As she lay on the ambulance

stretcher she kept telling the doctors she wanted to die. "I loved my husband," she would say over and over again, begging that she be buried by his side.

She bewailed the fact that she had ever left him and said it was she that made him kill himself.

She was asked many times if she and Guttzeit had not had trouble, but she insisted they had not; she loved her first husband best; that was all.

Guttzeit runs the Oxford Cafe in San Pedro.

He was notified and came at once to the city. He is a man of striking appearance and seemed terribly distressed. He knelt at the woman's bedside in the Receiving Hospital, begging her to try to live; she turned away from him with indifference. He told the hospital physician that he had never since their wedding two weeks ago told his wife she was threatening to kill herself.

The bullet cut the ninth and tenth dorsal vertebrae and is believed to have cut the spinal cord. She cannot move her lower limbs and has no sensation in them.

FATALLY STABBED.

Drink-crazed Miner's Murderous Attack Upon an Unarmed Man at Daggett.

(SPECIAL CORRESPONDENCE OF THE TIMES)

SAN BERNARDINO, June 7.—Jack Krauth, a well-known miner, was brought in from Daggett this morning in a critical condition from two knife wounds inflicted by a miner named Muldoon, who has been on the war path at Daggett several days. All day yesterday Muldoon was looking for a fight, challenging Krauth about the town, until the latter became weary of being harassed and slapped Muldoon's face. Muldoon replied by attacking Krauth with a knife, stabbing him across the left arm and burying the knife in his victim's stomach.

Muldoon was arrested by Deputy Sheriff Smithson after a sharp fight in the jail, which Krauth received temporary treatment at the hands of the resident physician and was placed aboard the Overland and sent in to the County Hospital. The knife wound in the stomach was probably results of a fall. District Attorney Gandy went to Daggett today to hold Muldoon's preliminary examination.

BLITZ ALICE BOOKED.

"EN ROUTE TO SAN QUENTIN."

(BY DIRECT WIRE TO THE TIMES)

SAN FRANCISCO, June 7.—(Exclusive Dispatch) Under Sheriff H. H. Yonkin of Los Angeles, escorted two fashionably-dressed women to San Quentin this morning. The women carried expensive suit cases and wore considerable jewelry. One of them was booked on prison ledger "En route to San Quentin." She proved to be Alice Meloing, who had been convicted of burglary in Los Angeles some weeks ago.

GETS FIFTY-YEAR SENTENCE.

TRAIN ROBBER YOUNG GUILTY.

(BY THE ASSOCIATED PRESS—A.M.)

ST. PAUL (Minn.), June 7.—Advices were received at the headquarters of the Northern Pacific Railroad here today from Phillipsburg, Mont., to the effect that Clarence B. Young, who attempted to rob the express car of the Northern Pacific train, two miles east of Bear Mouth, May 27, after he had dynamited the car, has been sentenced in the District Court to serve fifty years in Deer Lodge penitentiary.

Young was arraigned in the District Court yesterday and waived his rights and entered a guilty plea of guilty which was accepted by the court, who then sentenced him. He will be taken to the penitentiary today.

WIRE-TAPPING SWINDLE.

ST. LOUIS MAN HEAVILY LOSER.

(BY THE ASSOCIATED PRESS—A.M.)

CHICAGO, June 7.—M. Cohen, a wealthy junk dealer of St. Louis, has reported to the Chicago police the loss of \$7000 by a "wire-tapping" swindle.

Cohen met five men in St. Louis, and agreed with them to make a plan to beat the rawhide now in progress at Latonia. He came to Chicago with the men, and they took him to a room in a building near Sixteenth street and Michigan avenue. There were intricate electric machines there and he thought the scheme was going on.

For three days he remained with the party. During that time he advanced large sums of money, aggregating \$7000, and then the five men disappeared. There is no trace to the whereabouts of the swindlers.

Lanehart was discharged from The Times last week.

SHOOTS PARTNER AFTER QUARREL.

RANDSBURG MINER IS LIKELY TO
LOSE AN ARM.

As a Result of Stormy Words One
of the Men Goes Down Into Shaft
to Take Away His Property—The
Other Follows and the Wounding
Occurs.

(BY THE ASSOCIATED PRESS—A.M.)

RANDSBURG, June 7.—A quarrel resulted in the shooting of John Witmore by O. E. Cheesebrough at the Maggie mine this morning.

The men, who were partners leasing the mine, had quarreled, and Cheesebrough decided to quit. He went to the mine, accompanied by two men with a team, to get his tools. The quarrel broke out afresh at the mine and when Cheesebrough went down into it Witmore followed him, and according to Cheesebrough, carried a pistol in his hand.

Before he reached the bottom Cheesebrough shot, the ball going through Witmore's right arm, severing an artery and fracturing the bone. He was brought to Randsburg and his arm dressed.

The wound is a dangerous one and he may amputate his arm.

Cheesebrough is a man of property. He gave himself up. It is not thought safe to move Witmore.

SAY HE'S LIKE STAGE ROBBER.

SAN DIEGO PRISONER FILLS THAT DESCRIPTION.

Gives His Name as Ventura Martines but Police Believe He is Bartolo Estrada—Mexican Authorities Ask That He be Held Pending Investigation—Wanted at Ensenada.

(BY DIRECT WIRE TO THE TIMES.)
SAN DIEGO, June 7.—(Exclusive Dispatch.) In the arrest today of a Mexican giving the name of Ventura Martines, the police believe he is Bartolo Estrada—Mexican authorities ask that he be held pending investigation—wanted at Ensenada.

Roses have been scouring Lower California ever since. Two local men who know Estrada identify Martines as Estrada and the Governor of Lower California has asked that he be detained, pending official identification.

He answers the description perfectly. Martines has been in the city several days, and has exchanged considerable Mexican money for American coin.

SAYS HE'S AN INSULTER.

A case in which Madeline Fabien accused her uncle, Claude Le Carboeuf with cruel treatment and improper advances is being heard in the Superior Court. She says she came to San Diego from France, accompanied by her three daughters, at the repeated request of the defendant, who had declared that he had no relatives and that he would gladly care for himself and his children.

She says she found that Carboeuf was keeping a store at Old Town. Soon after her arrival he began his abusive tactics. On the second day he kissed her in a way which betokened no good. Then he called her all sorts of bad names. Finally she told him that if these were the conditions under which she was to live in his home she would leave. She appealed to the local French Consul. After that Carboeuf struck her twice and she was compelled to flee for her life.

She found a home at the Helping Hand and since then has been doing housework. She wants \$5000 damages.

CORONADO BEACH.

CONCERT, WEDDING, PERSONALS.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

CORONADO, June 7.—The City Guard Band has been engaged to give a concert at Tent City, Sunday afternoon, although the official opening will not take place until the 21st.

Mrs. Jackson has returned after a visit in Los Angeles, Pasadena and San Gabriel. At the latter place she was the guest of Mrs. B. L. Hinman. News has been received of the wedding of Miss Florence Marion Winter and William Meyer Heckler of Chicago, the marriage having taken place on the 1st inst., at the home of Mrs. Charles Thorne, at Winnetka, Ill. Mrs. Thorne being a sister of the bride. Mrs. Winter has been a resident of the hotel for several seasons, in the family of Mr. and Mrs. Charles Thorne.

J. W. Shannon and wife, Edward J. Dillard, Arthur W. Dollar, San Francisco, were among the arrivals yesterday.

WOMEN'S CLUBS.**Reciprocity Day.**

The reciprocity day was an unqualified success; many of the puzzling problems that mothers have to meet were touched upon in most helpful phrase by the speakers, stirring music was furnished by the orchestra of the Washington-street school and the Grand-avenue school. The Olivet Congregational Church, where the all-day session was held, presented a pleasing appearance, heightened with the flags and streamers which were placed there under the direction of Mrs. Naylor.

Many out-of-town circles were represented and told of the good things accomplished during the year. The Washington-street Circle did not say anything about it, but the members certainly accomplished a great work yesterday in receiving and caring for the many delegates in attendance. One hundred and one of the visitors were seated at luncheon in the dining-room of the church. The tables were daintily decked with pink sweet peas and the feathery tracery of green against the white cloths, while overhead the airy festoons were seen, and the tables were the delicate viands.

The following resolution was passed by the Congress of Mothers assembled yesterday:

"Be it resolved, that the California Congress of Mothers and Child Study Councils, jointly with the City Council of Los Angeles and its executives, the city health officer, city chemist and bacteriologist, for their admirable activity in the recent inspection and analysis of foods, drinks, and drugs, the best interests of health.

"It is furthermore resolved that the women of these circles wish to co-operate, and would be glad if definite ways and means were suggested in which they could assist in this work."

This was one of the conclusions arrived at after the address of Mrs. O. Shepherd Barnum, upon "Household Economics and Food Adulteration," prepared by the ladies of the circle. Mrs. Schuman and Mrs. Miller had charge of the refreshments, and Misses Naugle and Schurman, both of whom were on the table of honor, where Mrs. W. W. Murphy and Mrs. B. F. Bolten presided.

PIPE LINE NOT SOLD.

Pacific Oil and Transportation Company Denies Purchase by the Standard.

The report was received here a few days since from Coalings that the Pacific Oil and Transportation Company's pipe line from that field to Tide-water at Monterey had been sold to the Standard. "Important, if true," is without doubt the proper characterization of this story, and the effect of such a deal upon the future of the Coalings field and indirectly upon the entire oil industry of California might prove important.

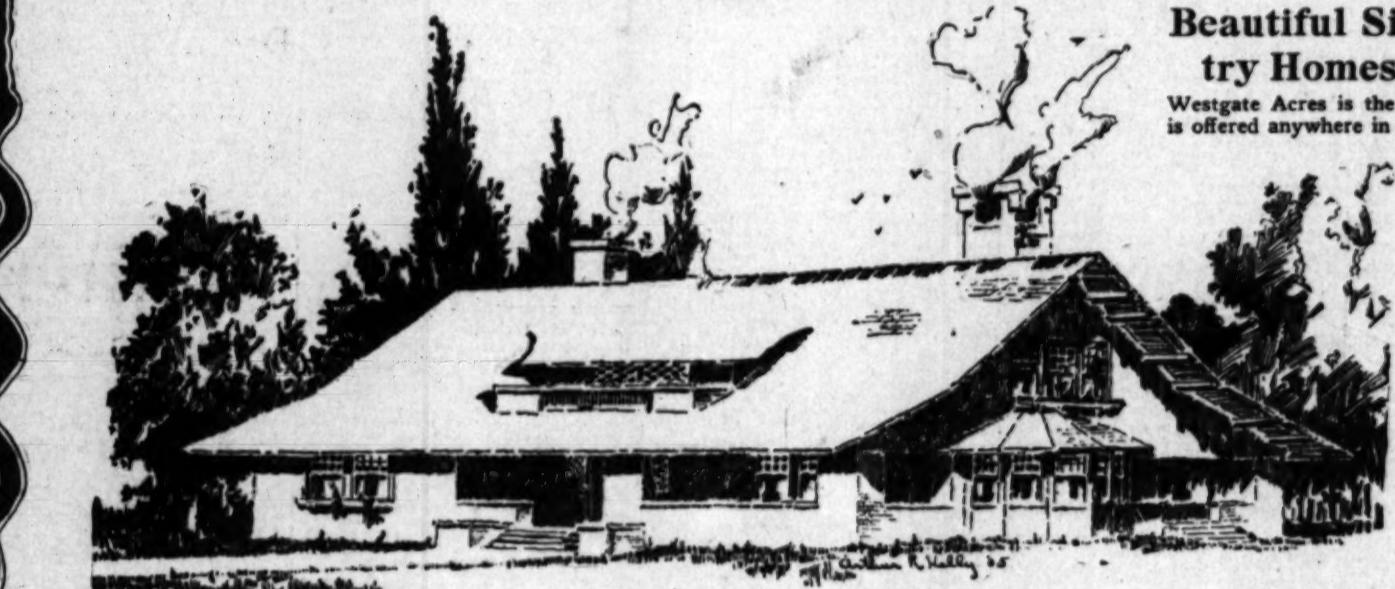

Inquiry made last night at the offices of both companies in San Francisco brought forth positive denials from all concerned. President William M. Mason of the Pacific Oil and Transportation Company stated that the report had no foundation whatever and in this he was corroborated by Frank Pauson, George T. Cameron and other principal owners and by William S. Miller, manager of the Standard.

The inquiries made did, however, bring from President Mason a full confirmation of the report circulated and published in The Times some

Westgate Acres

Sale of Westgate Acres Opens Today

This property immediately adjoins the beautiful Westgate Tract and the picturesque grounds of the National Soldiers' Home. It occupies a slight elevation on the verdant foothills, and commands a magnificent view of the Ocean from Santa Monica to Playa del Rey. Also Los Angeles City. A perfect outline of the Channel Islands is clearly visible from every portion of the property.

San Vincente Road "A Regal Highway."

This grand highway 130 feet in width (to be lined with ornamental trees) extends through Westgate Acres. Many of the lots face this beautiful boulevard. When connected with Sunset Boulevard, the San Vincente Road will be one of the finest automobile courses in the West.

Attractive Country Homes

The residences shown on this page are typical of the style of homes now being erected in this delightful garden spot. Several are now nearing completion. The ideal environment, mountain, ocean and valley views, the equable climate, soft ocean breezes, and perfect sanitary conditions, render country life at Westgate Acres a lasting delight.

The Zenith of Investment

Every home in Westgate Acres can be made self-sustaining with very little care; devote a small part of your time to it, and you can reap a neat profit from berries, fruits, vegetables, chickens, etc., as well as supplying your own table with all the delicacies fresh from your own garden. For the amount involved there is not a better investment in Southern California today.

One-Half to ten Acre Lots, \$350 and up. Terms, One-fourth cash, balance on easy terms at seven per cent.

Beautiful Sites for Model Country Homes ONLY A FEW MINUTES FROM THE CITY.

Westgate Acres is the most desirable acreage property that is offered anywhere in California today.

The soil and climatic conditions here are the exact counterpart of those at Hollywood. The property lies in the heart of one of the greatest garden districts in the State. The largest supply of winter vegetables comes from this section.

Roses, carnations and all species of semi-tropical fruits and flowers flourish successfully here. Jack Frost is a stranger in this district.

Fortunes can be made here in producing fruits, vegetables and berries of every variety.

There is an abundance of the purest water.

Acreage Near a Great City "is the Thing" Russel Sage Says. Buy it, Hold it. It Means Ultimate Independence.

The L. A. Pacific Ry. Co. are extending a double track system through the property. The system throughout will be one of the best equipped in the State. No lots are more than 5 minutes' walk from the cars.

You may traverse the entire State from Eureka to San Diego, and you will not find the equal of this sterling property for home or investment purposes.

Do you realize, reader, that beautiful Westgate Acres is but 35 minutes from the great and growing city of Los Angeles—the future metropolis of California?

Do you know that it is almost as near the business center (via electric car) as Hollywood, where 50-foot lots sell for \$3000 and even more?

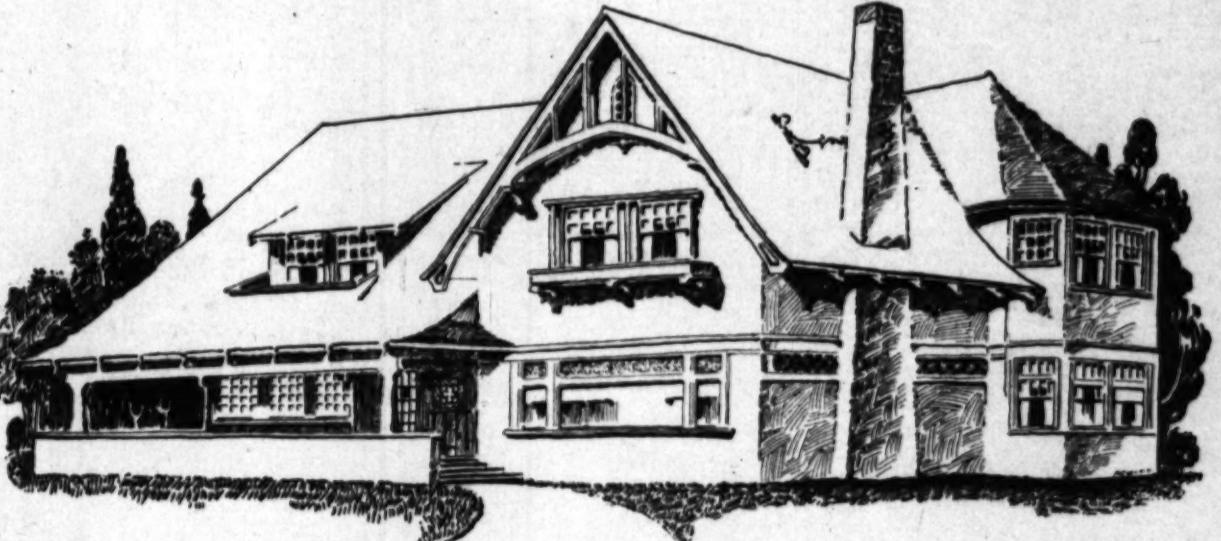

Westgate has all the advantages of Hollywood and possesses a grand ocean view in addition. Hollywood was a barley field only a few years ago. You know what it is today, and you can easily anticipate what Westgate Acres will be ten years hence...

Acreage Has Been The Foundation of Thousands of Southern California Fortunes

Only a few years ago three acres between Seventh and Ninth streets near Whittier street in Los Angeles, brought \$2750, and five acres near Agricultural Park sold for \$700. At the corner of Washington and San Pedro streets, a three-acre tract set to trees, sold for \$150. Today, 50-foot lots in this section are worth thousands of dollars.

Los Angeles is the most rapidly growing city in the West. Shrewd investors are buying close-in, improved acreage. An investment at Westgate Acres now, is sure to bring a rich reward in a surprisingly short time.

RAILROAD RECORD.
**NINETY-MILES
HOUR PALACE.**Finest of Private Flyers Mr.
Huntington's.Elegant Car Coming from the
Local Shops.Great Trolley Locomotive
Another Pride.

Ninety miles an hour is the guarantee of speed of H. E. Huntington's palatial car, "Alabama," of the president of the Pacific Electric Company, which is now being completed in the shops of the company, and which will be seen on the Los Angeles-Lake Arrowhead run this week, where it will travel quickly out of the shops for trial runs on one of the beach lines. The Alabama is said to be quite the peer product of modern electrical engineering and car-building art ever

and cook's galley are fitted with every modern convenience, not overlooking a refrigerator and ice box, and refreshment cabinet.

Large plate-glass windows extending entirely around the car insure an unobstructed view from any and all parts of the interior, while the ledges of four stained glass panel windows furnish receptacles for books, papers, and plants. Half a hundred electric lights will shed a blaze of light by night; electric fans give perfect ventilation and cool air, and four electric fireplaces will warm the car in cold weather.

The interior finish of highly polished mahogany and birch. The exterior is painted an olive green. Altogether it is one of the handsomest and most conveniently designed private cars to be found anywhere.

Although the Alabama is given a rated speed of 90 miles an hour, it is believed by the motive power department that they would have no trouble in coaxing "her" up to the century mark on good stretches of road.

TROLLEY LOCOMOTIVE.

PACIFIC ELECTRIC'S PRIDE. Electric freight locomotive No. 1 and President Huntington's private car the Alabama are deservedly the especial pride and pets of the mechanical and electrical department of the Pacific Electric.

These two types of machines are radically different in their construction and the uses for which they are intended, yet bear a number of points in common. Their driving wheels are of the same diameter, and of the same high-class material, but those of the car will turn about three times faster than

VALLEY OF MIRACLE.

What Has Been Accomplished in the Rich Imperial Country—How the Colorado's Waters Transformed Desert Into a Garden.

BY ROSE L. ELLERBE

[SPECIALLY CONTRIBUTED TO THE TIMES.]

THIS reclamation of the Imperial Valley is one of those miracles which we calmly accept as natural when accomplished, however much we may have denied their possibility beforehand. This basin, an area of about 1000 square miles, was formerly a portion of the Gulf of California. When the silt from the Colorado River threw a bank across its lower end, it became the largest lake which gradually evaporated under the fierce sun of the desert. From time to time the lake was filled by the flood waters of the Colorado, which deposited the sediment around out of the Grand Canyon and the Colorado mountains, and where the river has its source. Thus a stratum of rich soil was deposited over the saline beds left by the recession of the sea. But the mighty volume of sediment poured into the depression has not yet filled up the lake

ment Company has undergone reorganization, has acquired from the Southern Pacific Company capital for more development, and has provided for future management which promises large success.—Ed.]

SOIL DEMONSTRATION.

In 1901 a small acreage of alfalfa and barley was put out, but it was enough to demonstrate the wonderful productivity of the soil. This year, 1905, a greatly increased area of land in the Imperial Valley is under actual cultivation. Alfalfa has been found to yield immense crops and many varieties are now being raised. Barley, wheat, Egyptian corn, sorghum, sugar beets, and other field crops do well. Grapes and cantaloupes are being cultivated. The government, and private parties also, are experimenting with the date palm. Several orchards of these trees, the cuttings imported from Africa, have been started, and give every promise of adding a new and valuable product to our resources. The government is also experimenting with other plants suited to the peculiar conditions found in the region. It is believed that some and some varieties of cotton may be successfully grown.

The great industry of the valley, however, is the growing of live stock. Large numbers of cattle are being taken into the delta of Arizona and New Mexico to be fattened for market. Great herds are now being pastured. Horses are raised, and a horse breeders' association has been formed, which purposed to raise blooded stock. Hogs are also raised and are presented to the market at Imperial, in operation, and others are to be established.

In 1903 the Southern Pacific built a branch line from Old Beach through the valley to Calexico, on the Mexican line, a distance of forty-five miles. This gives access to miners. The company is now constructing a line from Calexico direct to Yuma, which will give quick and cheap access to all Arizona points for Imperial Valley products. Possibly the Southern Pacific will connect Calexico with San Diego by a direct line and gain that access to San Diego Harbor which has been so long delayed. This will give the Imperial Valley an overland line and increase its marketing facilities greatly. A new and improved Holteville interurban line connects Holteville, twelve miles east of Imperial, with the main line of the Southern Pacific.

SCHOOLS AND CHURCHES.

There are eight school districts in the valley. Imperial has a \$5000 schoolhouse, and the census of 1905 shows 23 children, an increase of 117 over 1904. Two church buildings have been erected at Imperial, and there are a number of church organizations in the valley which expect soon to put up church homes. A telephone system connects all the towns of the valley. Numerous other oil wells are being settled and filtering the canal water; a piped water system is installed at Imperial and Holteville, and Brawley will soon have water delivered under pressure.

The shipping of cattle, horses, grain, and hay from the valley is made Imperial one of the most important shipping points on the Southern Pacific in this State. Thousands of cattle have been recently brought in from Texas to be fattened on lands below the international boundary line.

The market of Los Angeles will be largely supplied from the Imperial Valley, in the near future, with beef, pork, hay and grain. Early fruits and vegetables, cantaloupe, grapes, dates, etc., will be raised from the valley.

The opening up of this large area of productive farming land adds materially to the resources of the State.

The lands and improvements in the valley have reached millions in value. The cost of water has been reduced in five years by the enterprise, the courage and the money of the men who have provided and applied irrigation water to the land, cultivated it, made improvements, and raised stock, grain and vegetables.

If the man who makes two blades of grass grow where one grew before is a public benefactor, the man who makes a dozen blades to grow where none at all grew before comes near to being a creator.

TOWARD DEVELOPMENT.

In 1894 a private corporation was formed, which was known as the California Development Company. It was made up of men who were thoroughly familiar with the country, and who had unlimited faith in the possibilities of their plan, although their capital was by no means unlimited. One of these men, C. R. Rockwood, was a civil and hydraulic engineer, who had been long employed in this region and who knew its lands well. He proposed to utilize a canal, the Alamo River, on the Colorado which carries the overflow of the Colorado in flood times to the Salton sink, and thus bring the water at a minimum expense into the great areas, in both California and Mexico, which lie low enough to receive it.

The question of the redemption of arid lands has become a matter of national importance. Of late years it has assumed political significance, and has been the subject of numerous Congressional investigations and acts. As yet, the discussions and the plans of the government have resulted in little more tangible than printed reports and survey stakes.

PROGRESS OF WORTHINGTON.

B. A. Worthington, formerly general manager of the O. R. & N. at Portland, who left Wednesday to assume his new duties as vice-president and general manager of the Wheeling and Lake Erie and superintendent in charge of terminals of the Gould system, is considered to be one of the brightest and best posted railroad men in the United States.

It is almost wholly in the West that Mr. Worthington has made his rapid advancement in railroad work, and his former associates on the Coast are confident that he will display the same speed and ability in the East. They say his genius is not a question of geography, but that he carries it with him wherever he may go.

It will be recalled that Mr. Worthington was formerly superintendent of the Coast division of the Southern Pacific, and was promoted to general manager of the Southern Pacific in 1901.

He also held the positions of assistant director of maintenance and operation of the Oregon Short Line at Chicago, private secretary to A. N. Towne, general manager of the Southern Pacific at Sacramento, not to speak of the several minor positions he held during his upward climb.

Mr. Worthington is but 40 years of age, and his new position carries with it a salary of \$25,000 per annum.

ALONG THE LINE.

The Salt Lake will handle the delegates of the American Wine Dealers' Association, from Salt Lake to Los Angeles, on the occasion of their western trip to attend the annual meeting of the organization to be held at Fresno in July.

The roadbed for the Pacific Electric line to Santa Ana has been graded for a distance of a mile, and the laying of steel will soon commence. This extension leaves the Long Beach line at Watts, and will soon reach Santa Ana, thirty-one miles from the Pacific Electric central station.

Kenneth Kerr, traveling passenger agent of the Burlington, arrived Tuesday from his headquarters at the eastern terminal of the roads during his stay at Omaha, will arrive Sunday evening.

L. W. Wakeley, general passenger agent of the Burlington, with headquarters at Omaha, will arrive Sunday evening.

The Salt Lake announces that in the future at Leavenworth, the crossing of one of the branch lines of the Santa Fe, positively no stops will be made for letting off or taking on passengers. This is done at this point: miles of desert all about, no water and no food.

It is possible that passengers making a transfer may suffer hardships if not staying in camp in waiting for trains which may be delayed.

H. V. Hilliker has been appointed superintendent of the Utah division of the Oregon Short Line, with headquarters at Salt Lake, taking the place now held by the appointment of H. V. Platt, to the superintendence of the New York Central.

Following close upon its recent announcement of cutting the running time between New York and Chicago to 23 hours, the New York Central has just issued a circular circular advising its patrons that an eighteen hour service each way between the two cities would be inaugurated June 15. The train which will make this service will be the "Empress of the West," limited, will leave New York at 8:30 o'clock in the afternoon, arriving at Chicago at 8:30 o'clock the following morning. Returning, the train will leave Chicago at 2:30 o'clock in the afternoon, and arrive in New York at 8:30 o'clock the next morning. This schedule is arranged with a view to giving business men who must make the round trip between the two cities without delay, sufficient time either in New York or Chicago to transact their business in the morning, and catch the same train home the afternoon of the same day.

The "Empress of the West" will be used as the "Empress of the West" in the opposite direction, running from New York to Chicago, and vice versa, as not

the view of the occupants of the car, nothing but the air brake, and the gauge which measures the pressure, will be used.

In front and rear of the car, bottom beams, 2 inches wide, 3 inches deep, are fastened to the body of the car.

The side walls, 2 inches wide, 3 inches deep, are fastened to the body of the car.

The top plates are made of 1/2 inch steel, in turn, are bolted to the channels, while the floor is made of 1/2 inch steel, giving a weight of 2 tons.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

One School's "At Home."

The Fifty-fourth-avenue school is to have an "at home" Friday from 2 to 8 p.m. There are to be exercises by the pupils and Superintendent Foshey is announced to take part in the program.

Grandview Musicals.

A musical will be given at the Grandview Presbyterian Church, Adams street and Vermont avenue, on Friday evening. The soloists and musicians will take part. There will also be several readings by Miss Blanchard Hardy.

C. of C. Members.

These new members were elected to the Chamber of Commerce yesterday: Owen McAleer, George W. Van Alstyne, Aubrey C. Miller, Berhard and Geyer, Patterson, W. M. Bell, Harry Havill, Black Brothers, Newton Moore, Cochran and Hudson, Ernest H. Grashay.

Our Needs in Roads.

At a dinner of the Engineers' and Architects' Association, to be given at the Café Bristol this evening, those present will consider the securing and maintenance of an asphaltum wearing surface on the roads of suburban towns and residential districts in Southern California. C. C. Brown will read a paper on the subject.

Services in Big Tent.

Evangelist William Simpson, who is conducting a series of revival meetings in the big tent at the corner of Sixth and Hill streets, spoke to a crowd of almost 2000 people yesterday evening at the Five-street synagogue at 6:30 this evening. The services will continue Saturday at 8:30 a.m. Tomorrow at 8 p.m. a confirmation service will be held, when twenty boys and girls will go through the services. Rabbi Myers will give an address.

Sequoia League.

The first annual meeting of Los Angeles Council of the National Sequoia League will be held next Tuesday evening at the Hotel Plaza. Address will be made by Bishop Johnson, Mrs. Emma G. Greenleaf and Charles F. Lummis. In other features the occasion will be unique and interesting, as there will be Indian music and dancing, while Indian refreshments will be served.

Dalton Injunction.

Judge Wellborn yesterday granted a temporary injunction asked for by the New Liverpool Salt Company against the California Development Company, restraining the works of the latter corporation. When the plaintiff files a bond of \$50,000 to guarantee the defendants against loss, the injunction will become permanent, the order will go into effect. Thus those who brought the action have gained the first point in the "Salton Case."

Track Crew Busy.

Track men of the Los Angeles Railway Company worked like beavers from 12 o'clock last night until daylight, putting in the curve at Jefferson and Main streets. Work will be resumed today on the laying of the stretch along South Main street between Jefferson and Fortieth streets, and with this gap closed the operation will be completed. To whom the revenue will be a possibility. By special arrangement the Main-street cars will be operated alternately south along Moneta avenue and west along Jefferson street.

Bottle-bludgeon.

W. Conrad, a bartender of No. 401 North Los Angeles street, went down and out under the shelter of dawn in a restaurant on Los Angeles street last evening. The proprietor delivered the blows with an empty bottle and when he had finished with the bartender the services of a physician were in urgent demand. Conrad engaged a couple of women in conversation in the restaurant and the bartender took off. A war of words was followed by a fight in which Conrad was badly worsted. The injured man was sent to the Receiving Hospital.

Ornate Invitation.

The formal invitation of the Salt Lake Commercial Club to the Los Angeles Chamber of Commerce for the approaching trip over Clark's line has just been received. It is an ornate affair. It is a piece of polished mahogany, seventeen by twenty inches in size, and three-fourths of an inch in thickness, magnificently mounted with gold and silver. The club seal and small screws are made of gold, the large plates representing a sheet of sterling silver, while the oxidized frame outlining the silver tablet is of pure copper. Other decorations are of gold and silver. The gold is from Mercer, the silver from Park City, the copper from Colorado, and the ornaments from Cottonwood Cafonall in the State of Utah. The invitation was put together and engraved by the firm of J. H. Leyson and Co., Salt Lake City.

Highway Commission.

The Highway Commission held its monthly meeting yesterday morning at the Courthouse. Chairman Gates of the Road Marking Committee presented his report upon three of the county roads, which are now ready for blocking. One of them—the foothill route, passes through Garvanza, South Pasadena, Lamanda Park, and so on along the base of the Sierra Madre foothills to Upland, just over the San Bernardino county line, north of Ontario. The second route takes a southeasterly course through Whittier to the Long Beach area. This road follows the Susan boulevard and Prospect avenue to Cahuenga avenue at Paul de Longpre's place, thence through Cahuenga Pass and northwesterly to the Ventura county line.

Very necessary measurements have been made, and concrete mileposts, designating the distances from the Los Angeles Courthouse, will be set in the immediate future, and guideposts will be placed at turns and angles, the road, route, and highway, strangers, and local residents, for that matter, to take drives out into the country without getting lost. Property fronting on these roads can be designated as to locality by conforming to the ten-block system of numbering, which will soon be in vogue. When the system is put into practical operation Los Angeles will have the best suburban and rural system of guideposts and country house numbering ever devised.

Castanet Undertaking Co.

No. 128 South Grand. Lady attendant. Tel. Main 602. Home 362.

Pierce Bros. & Co. Undertakers.

129 S. Hill. Both phones 41. Lady attendant.

Lusk Cab Co. 120 South Main. Buses, tally-ho, 2-seaters, ivory. Phones 227.

The Best Messengers

Are furnished by the California Service and Information Bureau, 12 West Fourth st. Tel. Main 1266. Home 225.

BREVITIES.

The volume of "Lines" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier, especially Sunday real estate announcements, which in order to be printed must be in the office before 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slow press work, making it essential, in order to get the new real estate news in time, to stop receiving real estate ads at 10 o'clock Saturday nights. Dealers will confer a favor on The Times office if they will turn in Sunday copy on Friday evenings, 5 p.m., or the latest part of it, and the balance early on Saturday. Sunday "Want" ads will still be received by phone and over the counter until 11 o'clock Saturday nights.

The ladies' rest room on the top floor of the new building of The Times Building is open daily from 10 a.m. to 5 p.m. from town or country will find a convenient place to write, rest or read. Stationery provided for correspondence. Both phones available. Take elevator in business, 9 o'clock residence for sale: arranged for two families. Westside district: \$2700; no agents. Phone OWN-24954.

A modern, 9-room residence for sale: arranged for two families. Westside district: \$2700; no agents. Phone OWN-24954.

THE DIRECT WIRE TO THE TIMES:

**NEW YORK, June 7.—(Exclusive
Press)—** Walter Jennings' Califor-
nia, Proper, proved his own
that was not too high by winning
short race at Gravesend this aft-
noon, the handicap at a mile and
one-half yards. The track was fastlock
in 1:58 1/5. The
was most impressive, and horses
witnessed it. It may
be seen to a lot of benefit
in the Suburban, which is to be
run fifth to the last quarter, and
gave him a head, and he
climbed over. Horses
proven, racing called
same fast at the end.
Butting a length for place.

Pen Points

What will King Oscar do? But, since he is a poet, perhaps it were vain to ruminant.

Norway has had a stormy history—naturally, perhaps, because she has also a stormy climate.

The report that Russia had sued for peace seems to have been somewhat premature and slightly Tokied.

We don't know whether King Alfonso makes up his own speeches or not, but, by ginger, they're pretty good for a kid.

Norway and Sweden have been wedded for over ninety years, and countless children blessed the union. Now the divorce comes.

The leaders of the Chicago strike have at last accomplished one result. They have introduced the teamsters and their families to the wolf at the door.

President Roosevelt is an indefatigable peace maker. And this is the man whom the Democratic party was holding up as a menace to peace, scarcely one year ago.

If every monarchy would buy its king out, open up the head job to the best man, about every four years or so, it would prove a big investment in more ways than one.

What strange vagaries history itself indulges in! Here is Norway asking for a King of the blood of a French soldier of fortune, who turned his sword against the man who made him.

We are not in a position to state positively what truth there may be in the report that neighbor James J. Jeffries is "sick of sport," but we can vouch for the fact that he made the other fellows sick of it, all right.

There are still a few prominent men remaining who have not been mentioned for the chairmanship of the Equitable's board of directors, but if the public will exercise patience the list may ultimately become exhausted.

The signs are that the war in Cathay is not so likely to soon end, and that another war may be begun in the land of the midnight sun. Poor little white dove of peace, she no sooner lights than she is scared away again.

It seems strange, too, that Norway should look to the House of Bernadotte for a King. Are there no Norwegians fit to sit on the throne? Is there no man in the land who can trace his lineage back to Canute the Great?

The labor unions have declared that certain brands of beer are "unfair." If the walking delegate, especially, would stand for a general boycott on all brands of beer, perhaps there would be less evil brewing right along as a consequence.

Our esteemed townsmen, James J. Jeffries, has come home to stay, and requests that he be "let alone." We venture to say that the request will be unanimously granted on the strength of Mr. Jeffries' reputation as a gentleman and a resistor.

We sincerely hope that Ambassador Reid underwent a good course of training before he struck the Court of St. James. He has already drunk a great many toasts since he started in to ambas., and unless he is fortified with the proper copper lining his finish is in sight.

The royal wedding seems to have passed off pleasantly. In the meantime a lot of other weddings passed off the same way, although no mention was made of them in the newspapers, and there wasn't anybody present but just the neighbors and a fiddler, who never took a music lesson in his life.

We notice with pleasure that the Vice-President of the United States is being regularly quoted, lately, and that even the name of the gentleman who holds the office is frequently mentioned by the reporters. Mr. Fairbanks was once a newspaper man himself, and the boys are probably standing him in "for the old sage's sake."

Yesterday the Knights of Columbus stood on holy and historic ground, the memories of the past and the duties of the future facing them together under the ruined walls of San Juan Capistrano. It must have proved an inspiration to the great hosts there assembled to contemplate the mighty works done by the brown padres of old, who ruled by love, and who subdued the savage, not with fire and sword, but with gentleness and peace.

Every evening, as regularly as the sun sets, Von Tattenbach-Ashford takes a quiet stroll down the redolent streets of Fez, drops into the Palace, smokes a cigarette or two with the Sultan, and maybe plays a few games of backgammon with him, for all we know. And those European nations are all as serious of one another that a little thing like that makes them so mad that they are sending notes to Morocco and accusing old Von of being taken home every night in a cab, perfectly helpless.

be absolutely and uncompromisingly divorced from the traction system before it could be made a success. This settled it, so far as the Mayor and his coterie of municipal ownership adherents were concerned—and they appear to be the persons principally concerned in the municipal ownership question as it now confronts Chicago.

From the foregoing it seems clear that there is no desire on the part of Mayor Dunne and the controlling officials in Chicago to have the question of municipal ownership of the street railway business divorced from politics. Rather does it appear that they propose to keep the question at the front, and distinctly in politics, for purposes of supposed political advantage.

This scheme will work for a time, perhaps. The political machinists may be able to fool the people for a while, but they cannot do so permanently. Unless the management of the roads be separated entirely from municipal and State politics, success will never be attained. If these roads be made the plaything of party politics, their efficiency will be entirely destroyed, endless complications will ensue, and the ultimate result will be a reversion to private ownership.

Chicago now has an opportunity to give a thorough test to the problem of municipal ownership. If this test be made under right conditions, it will be of inestimable value as showing what may be accomplished in this direction by well-directed and honest effort. But if the street railroads are to be run as a part of a municipal party machine, the experiment will be foordoomed to failure. Now is the time to choose for good or for evil; the apparent intention is to choose for evil.

WORK OF THE DESTROYERS. It is unfortunate for the news loving portion of the world that there was not a live war correspondent standing on the bridge with Togo when he led his fleet from the shelter of Tsushima into the Strait of Korea on the morning of the 27th of May. But the curtain of secrecy that was dropped upon the scene of operations when the first fleet left Nippon for Port Arthur has only raised at intervals and the world must continue to get its descriptions of these history making tragedettes in installments.

While Togo, like all geniuses, appears to have followed no precedents, it does not require a great stretch of the imagination to see in his dashing fury upon the fog-bewildered Russians and his subsequent maneuvers a strong similarity to the tactics adopted by Napoleon in the zenith of his career. The strategy of the great Emperor always aimed at a surprise and then overwhelming his opponent with the force and fury of his onslaught.

So with Togo. First, out of the morning haze came the battleships with their batteries of 12-inch guns, fired with unerring precision and seemingly from all points at once. Then followed the cruisers, pressing ahead of their heavier consorts, close up to the enemy and fairly smothering his ships with a hall of shells, many passing clear through the steel hulls.

But wait, night is coming on. The enemy is in disorder and little is required to turn that disorder into panic. Now is the time for the sea cavalry to charge. The signal flutters from the flagship: "Forward, the destroyers!"

The battleships and the cruisers increase the volume of their fire and at the same time slowly shift their positions leaving the way clear to attack the hulls of the Russian ships, already sorely wounded. Then, from out the gathering gloom a score of shadows come, darting here and there, each with

The strength of twice three thousand horse.

That serve the one command;

The hand that heaves the heading force.

The hate that backs the hand;

The doom-bolt in the darkness freed,

The mine that splits the main,

The white-hot wake, the wildering speed.

The Choosers of the Slain!"

Then, far above the roar of artillery came the concussion, the shrieks of exploding magazines, the shrieks of dying men, and a great part of the Russian fleet had ceased to be. What followed that night and all through the next day was but the mortal pangs of a stricken animal. The destroyers had done the work.

THE NORTH POLE.

[The nations at interest are beginning to discuss the question of ownership should the North Pole be discovered.]

Gives it to the one who finds it,

Give it to the nation that

Provides the man

Who leads the van

To find where the blamed thing's at.

Whoever finds it should have it;

There's nobody has a claim

Superior to

The finder who

Can win in that freeze out game.

Give it to him who finds it;

He has earned it every bit,

Let him take

The polar stake

To fasten his glory to it.

Yes, give it to him who finds it,

He is worthy of his goal,

And, brethren, we

Should make it be

Red, White and Blue North Pole.

—[New York Sun.]

Clergy and Laity.

The Rev. Endicott Peabody, head master of Groton School, speaking recently in Boston of the cooperation of the laity and the clergy, gave an example of one form of its practice taken from his own experience while at Tombstone, Ariz., where he received a letter notifying him of a meeting of which he was to be present as a speaker with the Methodist clergyman. The letter read:

"I have arranged a set-to between the Episcopal and the Methodist parsons. I am backing the Episcopal parson."

—[Boston Herald.]

Every evening, as regularly as the sun sets, Von Tattenbach-Ashford takes a quiet stroll down the redolent streets of Fez, drops into the Palace, smokes a cigarette or two with the Sultan, and maybe plays a few games of backgammon with him, for all we know. And those European nations are all as serious of one another that a little thing like that makes them so mad that they are sending notes to Morocco and accusing old Von of being taken home every night in a cab, perfectly helpless.

PASTOR SMALE
STIRS 'EM UP.
Full of the Spirit from the
Holy Land.

He Talks Stories of the
Welsh Revival.

ishop Johnson to Address
Superintendents.

It is noted about that on his visit to
the Holy Land, Rev. Joseph Smale
and the pentecostal fire.

After his return, but a story
in the great Welsh revival under Evans
and in those called for a series
of meetings every night for a week,
there were great doings that week,
those confirming himself to some
of the Welsh revival each evening.

There were no preliminary ar-

rangements, but there was prayer and
the talk of the preacher at the revival.

Spurred to suggest something to the
membership of the church that has just
through great excitement and
dissensions. When the song
and some brother or sister would
begin to talk. Impressed by
many of Evan Roberts, their minds
run over their own shortcomings.

Having inwardly re-

vised the situation, to talk about it
inevitably. Each speaker con-

fessed his own shortcomings, publicly
admitted wherein he felt he had
harm his neighbor, and publicly

admitted old brother, who was
now among the friends of Pastor

Evans, was turned in the
meeting. The members were
going away like rats from a sinking
ship, and with deep feeling made

confession:

"We best entice to my vices to
myself and have even gone so far

as to be migrants before he per-

sonally returned, now confessing my sin
of the forgiveness of God and of
myself."

As he walked forward to the
pulpit and took the pastor by the
hand, the crowd and it is
seen were other doings of the
character.

It can be no doubt that the re-

reacher will think his visit to
the Holy Land was worth while,

and the peculiar conditions. This

and the congregation on Sunday

did not care to commit
themselves to another week's services.

Announced that he would be at the
next evening's service, where they
had come and they had run together.

Probably much to
the crowds are larger this
time they were last, and the in-

formation that the church is on the
Welsh revival.

CALIFORNIA NURSES.

Brilliant Hospital Graduation Took

Place as Scheduled Last Night at

Blanchard Hall.

In a pretty setting, with dainty dec-

orations harmoniously corresponding to

colors of school and class, twenty-five

nurses, students at the big California

Hospital on South Hope street, received

their diplomas last night at Blanchard

Hall.

In point of numbers and attendance,

the graduation exercises were among the

best of the year, and in addresses and

music they were equally so.

Addresses were made by Dr. John R.

Haynes, on behalf of the faculty; Dr. F.

T. Bicknell, in the delivery of diplomas;

fact, tact and kindly humor by Dr.

Woods Hutchinson of Portland, Or.

Arend's Orchestra gave a delightful

programme of music, its selections in-

cluding popular airs, a Moskow

serenade, and one of Gershwin's new-

composition, "Jellyville."

The invocation was by Rev. C. C.

Pierce.

The nurses who went out from train-

San Bernardino, Orange and Riverside Counties.

(NEWS REPORTS FROM TIMES CORRESPONDENTS)

ORIGINAL PLAN TO GET DRINKS.

SUNDAY CLOSING A NEW THING IN SAN BERNARDINO.

Old Books Find an Easy Way to Evade the Law and Now the Town Authorities Will Amend It—Constable Moved to Nevada but Still Draw His Salary.

SAN BERNARDINO. June 7.—Sunday saloon closing is a new thing in San Bernardino, less than three weeks old, in fact. Those who for years have been accustomed to drinking every day in the week, and many times each day, have not taken kindly to the new order of things. It has been made evident to the city authorities that they, too, have much to learn if they hope to enact a municipal law which will prevent the unseemly use of intoxicants on the Lord's day, but there is learning by experience. At the next meeting of the City Council the existing ordinance will be amended, so intent are the lawmakers upon fixing the matter right that they will hold a special session Friday to turn the trick.

The reason for the earnestness is to be found in the experience of last Sunday, when certain old books found an easy and original way of obtaining all the liquor they had the money to pay for. Their plan was simplicity itself. They would go to a restaurant, where the proprietors may sell intoxicants with meals. Last Sunday a gang of topers would assemble, pool their finances and then purchase one of their number a meal. With that meal the man would order a sufficient quantity of booze for the party, and all of them thus would become too drunk to care whether it was Sunday or Christmas.

ALIHI HIS DEFENSE. Tomorrow morning the preliminary hearing of W. C. Morton, charged with throwing pepper into the eyes of George Dressel and robbing him of \$16, will take place at the U. S. Courthouse. C. L. Thomas here. Morton claims to be able to prove an alibi, and for this purpose has subpoenaed numerous witnesses from Manzanar.

DIDN'T FORGET SALARY. The Supervisors have declared the position of constable of Vanderhill township vacant, and at the next meeting, June 10, a new one will be filled. It appears that four or five months ago Constable Brooks of Vanderhill removed to Beaver Lake, Nev., without notifying the Supervisors, and having become a non-resident and forfeiting his office, he has regularly been drawing down the salary, which is officially set at \$10 a month. This disclosure came as a big surprise to the board, which has ordered the District Attorney to make a demand upon Brooks for the return of the money, and to institute action against him should he refuse to return.

SHEEPMEAN WIN. Octave Bresson, the sheep herder who was arrested some weeks ago, charged with a misdemeanor in having driven bands of sheep numbering more than one hundred over a county road at intervals of less than one hour, has escaped punishment, Justice of the Peace C. L. Thomas having dismissed the case and the man on his release, by his attorney, F. H. Daly, that many years ago Superior Judge Otis of this county held that the law was an unconstitutional one. Bresson was being backed up to the hilt by most of the sheepmen in the country, who had decided to make a test case and carry it to the highest court possible, if necessary.

BENEFIT BALL GAME. A benefit ball game is being arranged for Saturday afternoon, June 24, to be played between a married men's team and a team of single men, the proceeds to go to the building fund of the Woman's Club. The married men's team is to be composed of S. F. Kelley postmaster, E. D. Roberts, president of the San Bernardino National Bank, School Trustee R. J. Jones, and Merchant C. G. Clark, W. C. Carson, C. M. Hause, F. S. Scott, R. A. Brydell, and J. H. Monnette. J. E. Butler will umpire the game. The unmarried men's team has not been selected.

NEW PUBLIC PARK.

The Board of Water Commissioners has under consideration the transformation of the city's 22 acres on which the Antill water system is located into an attractive park, a starting point for the construction of a sixteen-acre tract on Edmonson Drive, sixteen acres of which is planted with a three-year-old orange orchard, the rest being unimproved. The estimated price paid in the neighborhood of \$15,000.

Clarence A. Watson, who recently sold his home in Redlands Heights to George S. Myers, has purchased consideration of \$16,000, has purchased E. G. Judson a six-acre tract adjoining, which is just west of Englewood Park. Property here is valued at \$1500, to be an acre. The sale of this property was sold this week to Mr. and Mrs. William R. Davidson, and both Mr. Watson and Mr. Davidson will erect handsome homes on these sites this summer.

But the information having reached the Daily News yesterday's owner, the trail until unearthed the facts, proving that the man now in Folsom for a term of ten years was undoubtedly guilty of another crime for which he may have to answer when he has finished this sentence.

LOCAL REALTY DOINGS.

William N. Moore purchased yesterday day at Karp's, the bookshop having a large tract on Edmonson Drive, sixteen acres of which is planted with a three-year-old orange orchard, the rest being unimproved. The estimated price paid in the neighborhood of \$15,000.

Rosa B. Harris died today from John H. Harris. Hugh Holbrook, infant son of Mr. and Mrs. F. A. Holbrook, died this morning, and will be buried from the residence on Halladay street tomorrow afternoon at 2 o'clock.

ORANGE COUNTY BREVIETIES.

A final decree of divorce was entered in the Superior Court today in favor of Harry Thibault from Marilla Thurber.

Mr. G. Ben, a local friend, yesterday with a musical evening. Parlor games were played after the rendition of musical selections.

The sum of \$3000 Springfield school district bonds were sold yesterday by the Los Angeles Company of Los Angeles for \$27 premium.

Rosa B. Harris died today from John H. Harris.

Hugh Holbrook, infant son of Mr. and Mrs. F. A. Holbrook, died this morning, and will be buried from the residence on Halladay street tomorrow afternoon at 2 o'clock.

FULLERTON.

CHANGES IN STATE BANK.

M. C. Chapman purchased the interest of President McEndree in the State Bank and was elected president yesterday. Cashier Percival also sold his stock in the bank and has gone East. Mr. McEndree and family will move to Los Angeles.

E. K. Benchell, who also purchased stock in this bank, and C. C. Chapman were elected directors, succeeding McEndree and Percival. F. H. Souders of the Commercial National Bank, Los Angeles, will act as cashier for one month, when Arthur Staley will assume the duties of cashier.

J. R. Gardner has purchased his partner's interest in the real estate firm of Gardner & Clever, Mr. Clever and family will go East.

E. K. Benchell, who also purchased stock in this bank, and C. C. Chapman were elected directors, succeeding McEndree and Percival. F. H. Souders of the Commercial National Bank, Los Angeles, will act as cashier for one month, when Arthur Staley will assume the duties of cashier.

The people of Olinda have decided to erect an undenominational church at once and have appointed Messrs. Marlowe, Cockey, Ellis, and Messrs. Shadwell, Bishop, and others to a committee to secure the necessary subscriptions. It will probably be located on a lot to be donated by the Santa Fe.

The people of Olinda have decided to erect an undenominational church at once and have appointed Messrs. Marlowe, Cockey, Ellis, and Messrs. Shadwell, Bishop, and others to a committee to secure the necessary subscriptions. It will probably be located on a lot to be donated by the Santa Fe.

At a meeting of the Redlands Lodge of Odd Fellows, the officers elected were: Noble Grand, Fred F. Massingill; Vice-Grand, F. T. Lyman; Secretary, D. W. Harris; Treasurer, Charles E. Truesell.

The marriage of Miss Grace Beatrice Goodrich and Dr. William H. S. Smith of Santa Monica took place this evening at the home of the bride's father, G. B. Goodrich, No. 29 Brook-

COLTON.

STIFF SENTENCE FOR THIEVES.

COLTON. June 7.—Six months in the County Jail was the sentence passed this morning by Justice Hanna on the two cholas, a man, Francisco Gallo and a little girl, Rosita Gallo, who were charged by Albert Steck with petty larceny, they being the pair who have conducted for some time a systematic scheme of shoplifting in the stores of Colton and San Bernardino. The sentence was suspended in the

case of the little girl, on account of her youth.

Notwithstanding the fact that in the courtroom was a table piled high with goods taken from the construction car where they lived—many pairs of shoes and stockings, hats, glasses, silverware, glassware and perfumes, many of which were identified by merchants as their property, the two Gallos failed not guilty. But the evidence was too strong against them and the court found them guilty.

In San Bernardino stores as well as in Colton, from time to time, the man and girl have been seen. It is believed that while the man attended the attention of clerks in one part of the store the girl appropriated the

side avenue. Rev. Henderson B. Judd, bishop's chaplain of the Los Angeles diocese, officiated. Dr. and Mrs. Mrs. Washington will be at home in Santa Monica after July 2.

At the Loma Linda Sanatorium is about to pass into the hands of the Seventh Day Adventists, the denomination that controls the Battle Creek Sanatorium and other anti-prosperity food centers in the West, is being sold. The price of the Sanatorium is to be delayed only until the arrival of several men who have been attending the national conference of the denomination in White Sulphur, D. C., and who are expected within a few days.

George Berry, who lost a fine dog by poisoning a few days ago, has sworn out a complaint against Frank A. Bean, who is suspected of having killed several young boys in the neighborhood recently. Bean will appear before Recorder Gilford Friday morning to plead to a charge of malicious misdeemeanor.

Louis J. Fox, for several years connected with a number of financial institutions here, goes to San Diego to be cashier of a bank there.

COLTON CROSSING JOLTS.

The Chamber of Commerce has selected Wilson Hayes, C. B. Hamilton and W. W. Wilcox as delegates to go to San Jose City on the excursion, June 10.

L. Richmond and his bride arrived yesterday from Eminence, Ky., and are guests of Mr. and Mrs. Albert Grizzell. Mrs. Grizzell is Mr. Richmond's sister. Mrs. M. C. Webster and children left yesterday for Santa Barbara, where they will remain for the summer.

Mr. F. W. Buchanan has returned to her home in Pasadena, after a visit of a week with her sister, Mrs. M. F. Cropley and relatives in San Bernardino.

DOUBLE GRIST OF MILLERS.

AND THEY DRAW DOUBLE PAY IN REDLANDS.

Wrong One Cashes Draft and the Right One is Made Good—Now It Appears That the Former is Serving Time in the Penitentiary for Robbery.

REDLANDS. June 7.—A forgery which was perpetrated in Redlands last winter, with Uncle Sam as the innocent agent, has just been made public.

Two men, each answering to the name "Joseph Miller," elected to spend a part of last winter in this city, one, a wealthy resident of South Bend, Ind., having come and gone before Mr. Miller No. 2 appeared on the scene. After the departure of the first-named man, his home bank mailed him a draft for \$300, which was delivered at the post office to the second Miller, when he asked if there was anything for Joseph Miller, and who doubtless was not aware at first that he was opening another man's mail.

DOUBLE WEDDING.

A pretty double wedding was solemnized at 2 o'clock this afternoon at the home of Mr. and Mrs. H. Stevens on Main street, when their two daughters, Misses Mary A. and Ethel Stevens, became the brides of two prosperous young ranchers of Orange. The bridegrooms are Charles A. Knuth, who pledged troth with Miss Maria Stevens, and Theodore G. Bratsch, who married Misses Mary and Ethel Stevens. The ceremony was performed by Rev. Mr. Kogler, pastor of the German Lutheran Church of Orange, and was witnessed by many friends of the couples. Mr. and Mrs. Knuth went to their home town of Englewood, where they were honored with a reception by their young friends. Mr. and Mrs. Bratsch will leave for a honeymoon, and upon their return will make their home on North Bush street. The bride was the winner of The Times Scholarship Contest two years ago.

CONTEST WINNER WEDS.

Clarence Bresson, the sheep herder who was arrested some weeks ago, charged with a misdemeanor in having driven bands of sheep numbering more than one hundred over a county road at intervals of less than one hour, has escaped punishment, Justice of the Peace C. L. Thomas having dismissed the case and the man on his release, by his attorney, F. H. Daly, that many years ago Superior Judge Otis of this county held that the law was an unconstitutional one. Bresson was being backed up to the hilt by most of the sheepmen in the country, who had decided to make a test case and carry it to the highest court possible, if necessary.

THE DR. WILSON STORY.

William N. Moore purchased yesterday day at Karp's, the bookshop having a large tract on Edmonson Drive, sixteen acres of which is planted with a three-year-old orange orchard, the rest being unimproved. The estimated price paid in the neighborhood of \$15,000.

Rosa B. Harris died today from John H. Harris. Hugh Holbrook, infant son of Mr. and Mrs. F. A. Holbrook, died this morning, and will be buried from the residence on Halladay street tomorrow afternoon at 2 o'clock.

Passers people at home."

Mr. V. V. Vining, of the
High School building
and the board hopes to have the aud-
itorium ready for the closing exercises
on the third inst.

Another gusher has been added to the
list of new spouters of California oil.

The latest, which has scarcely received a
notice from any source, has been merrily
pouring forth thousands of barrels of the
black, thick fuel petroleum upon which

SAN PEDRO, June 7.—The million
dollar mark has been passed in the
matter of monthly lumber receipts at
the port of San Pedro. May leaped far
ahead of all other months in the vol-
ume of business handled over the
various wharves. There arrived in the

month eighty-one steamers and forty-

one other vessels.

These vessels brought the following:

Lumber, 39,313,000 feet; shingles, 18,327,
000; shales, 335,000; laths, 6,086,000;
poles, 308; plies, 715; posts, 1240; ties,
5900; berry boxes, 200 crates; box
shooks, 56 tons; wheat, \$2,000 sacks;
cattle, 75; sheep, 2973; hogs, 89; mar-
chandise, 1329 tons and 5261 passen-
gers.

An illustration of the quantity,

it can be stated that this lumber would
load a solid train of cars reaching from
San Pedro to Los Angeles.

In addition to the business outlined

above, the German ship Pindos, Capt.

Johansen, arrived within the month

from Hamburg, Germany, bringing

the barrel of Petroleum.

The Pindos received excellent dis-
patch and sailed today for Talca, Chile, where

she will load a cargo of nitrates for

Hamburg. While in port Capt. Johen-
sen made many warm business and
social friends and every whistle in the
harbor shrieked "bon voyage" when
the Pindos weighed anchor and sailed
away at noon.

With the increase of business at this

port, the need for harbor defenses is

being urged more and more. There are

at all times hundreds or thousands of

dollars in floating property in the harbor

in addition to the extensive impre-
ment under way by the government.

It is represented here that if the busi-
ness organizations of Los Angeles and

vicinity would present late statistics to
the War Department relative to the

volume of business at San Pedro,

prompt action would be taken by the

national government to protect the

city.

Mr. De Longpré entertained Tues-
day afternoon in honor of her sixtieth
birthday. Mrs. De Longpré, with Mrs.
Elliott and Mrs. George received
Mrs. De Longpré. Also assisting
were Mrs. Philo Beveridge, Mrs.
Beville, Mrs. Palmer, Mrs. Fusonet
More, Cressey, McMenemy, Germaine
Preston, Florence, and Gladys
William, and Gertrude Connell. Miss
Blanche de Longpré entertained twenty
friends at cards Tuesday evening.

OCEAN PARK.

HEAVY JOLT FOR WIFE BEATER.

OCEAN PARK, June 7.—That the
way of the man who commits battery
upon his wife is hard was demonstrated
this morning in City Recorder Guiden-
ger's court in Santa Monica, when James E. Williams of this beach was
sentenced to the County Jail for a term of
sixty days. The complaining witness
was Adelia Williams.

On the first of July, just before the
opening of the Venice Assembly, a new
schedule is to go into effect: on the
electric railway between here and Los
Angeles. About seventy-five cars, cost-
ing \$6,000 each, are to be added to the
rolling stock in anticipation of the
summer travel to this end of the
line.

The pile driver was busy today at
the foot of Marine street, pounding
down the piles that are to form a
pleasure pier for this beach.

Transfers of the rights to erect and
construct an ocean pier stand at the foot of
Pier and Marine street have been
made to the Horseshoe Pier Association.

This is to be incorporated with a
capital stock of \$100,000, and a semi-
circular pier is to be built, with ter-
minating points on each street. The plans
of the corporation embrace also a big
pavilion.

The corner-stone of the Masonic
building on Marine street will be laid at
2 o'clock Saturday afternoon. A hundred
Knights Templars from Los Angeles
in uniform, have promised to be
present. M. H. Flint will act as Grand
Master.

STEAL FROM YACHT.

Articles to the value of \$100 were
stolen from the yacht Yehia, at Ter-
minal, this morning. The yacht is owned
by William Baker of Pasadena.

Charles Cole, the
fractured, a

practically unchanged.

Malahy stated that
complications should
chance of recovery.

"White Fair" Bed Specials

\$3.50 White Enamelled Beds at \$2.50

Have best baked on enamel; steel chills and joints; are well made; of good size, and will give the service of a \$10.00 bed. They sell regularly at \$3.50.

\$6.00 White Enamelled Beds at choice \$4.39

A special leader that you cannot afford to overlook; have best white enamel with brass rail on head and foot and brass vases and balls on posts; nicely finished and worth regularly \$6.00.

\$15.00 Extra Heavy White Enamelled Beds, at \$10.00

Made with full 1½-inch posts; large, heavy chills with ½-inch filling; high scroll camber back; are exceptionally well made throughout and have been reduced for the White Fair from \$15.00 to \$10.00.

\$22.50 Fine White Enamelled Beds, at \$15.00

Have 1½-inch posts; ½-inch filling; large fancy chills and large brass work on head and foot. Are one of the strongest, heaviest beds on the market, and have been reduced from \$22.50 to \$15.00.

10,000 Yards New Embroideries Worth Up to \$1.00 at per yd. 25c

Swiss, cambric, muslin and nainsook embroideries and insertions; some matched sets, others separate edges and insertions in Anglaise and embossed effects; designs floral, fruit, scrolls, wheels, drawn work and point effects. Widths up to 18 inches. Suitable for shirt waist suits, children's wear and undermuslins. Special for Thursday only.

Sale of Women's and Children's Knit Underwear

Prices One-Fourth to One-Third Less Than in Other Stores

The use of the thin sheer shirt waist calls for dainty under garments and we have prepared an exceptional sale of the best knit wearables procurable, to be sold at prices one-fourth to one-third less than the same qualities can be duplicated in other stores. This sale will be well to lay in summer's supply now.

Women's 15c Low Neck Pure White Vests at 10c

Swiss ribbed only; low neck, sleeveless style; prettily tasseled around neck and shoulders; are well finished and of good quality. They are the daintiest line of cheaply priced summer underwear that we ever offered the Los Angeles public and they would sell regularly at 15c with us, and are as good as many 25c values in other stores.

Women's 75c Jersey Ribbed Lisle Vests at 50c

High neck, long sleeves; nicely finished; tasseled with silk ribbon; both ankle and knee pants to match or lace trimmed pants in umbrella style.

Women's 25c French Lisle Vests at 17c

Low neck, sleeveless style; pure white; Swiss ribbed; tasseled at neck with mercerized ribbon, and are on sale at 3 garments for 50c, or, each, 17c.

Women's \$1.50 Pure Silk Vests at \$1.00

Low neck, sleeveless style; white only; hand finished neck; are of pure silk; Swiss ribbed; all sizes and neatly tasseled around neck and shoulders.

Children's 35c French Lisle Vests at \$1.50

French ribbed; vests high neck, long sleeve, with pants in ankle, knee or lace trimmed styles. Extra good and nicely finished.

Children's 35c French Lisle Vests at 25c

French ribbed; vests high neck, long sleeve, with pants in ankle, knee or lace trimmed styles. Extra good and nicely finished.

Table and Household Linens

"White Fair" Specials for Thursday

72-inch Bleached Table Damask at per yard 79c

An all-linen table damask; smooth and firmly woven; an excellent wearing quality; conventional and novelty patterns and as good as most stores sell at \$1.00.

\$3.00 Bleached Table Napkins at \$1.95

24 inches square. An all-linen napkin; fast selavage and worth \$3.00. It is the best that we have ever offered at the special price of \$1.95 a dozen.

12½c Soft Finished Pillow Cases at 10c

45-inch size; made of good soft finished pillow case muslin; nicely hemmed ready for use, and have never been offered under 12½c.

Heavy 9-Quarter Bleached Sheets At Each 69c

Made of an extra heavy sheeting; the popular round thread kind; preferred by many to the Pequot sheeting. Will give unlimited wear. The sheets are finished ready for use.

Men's \$1.00 White Golf Shirts at 79c

A special leader from our men's furnishing department for the great White Fair. No better shirt can be purchased at any time or place at \$1.00. They are of a white corded madras, with detachable cuffs; cushion neck bands; finished with pearl buttons, and are in sizes 14 to 17. Specially priced for Thursday's selling only, and a limit of 3 to a customer.

Thursday Morning Bargains

51.50 Boy's Rough Rider Suits (Like Cut) 75c

Made of the regulation khaki cloth; coats single-breasted military style; trimmed with blue braid; detachable buttons; long pants; suspender buttons; heavy canvas pockets; sizes 3 to 15 years. (Second Floor.)

50c 20-inch Corded Wash Silks, yd. 35c

100 pieces in the wanted colorings and black with white combinations in checks, stripes, broken checks and cord effects; also cream in stripes and checks. Positively matchless elsewhere under 50c.

5c Basting Cotton per spool 3c

500 yard spools; 3c each or 9 for 25c.

Fourth Day Semi-Annual White Fair

As the sale progresses the bargains increase, for as each lot becomes anywhere near broken, they are regrouped presenting a different line of values; also the rapid selling necessitates our putting in other merchandise from regular stocks which were not at first included in the White Fair. The phenomenal selling has advertised this great sale through pleased customers as effectually as has printed space in the newspapers. It is quite proper in this connection in lieu of our regular Thursday House Furnishing to include such household articles as are in white only, as Chinaware, bedding, linens and enameled beds are all white merchandise. Specially low prices for Thursday will be in effect. Don't let anything interfere with your taking advantage of the opportunity that this week's merchandise attractions offer for you will save an appreciable amount of money over any other time.

"White Fair" Undermuslins

Prices One-Fourth to One-Third Below Regular

\$1.50 Cambric and Nainsook Drawers at ... 98c

An assortment of 200 dozen, in more than 20 styles; all made with wide ruffles trimmed with Valenciennes, button or Torchon laces; also embroidery trimmed.

98c Cambric or Nainsook Gowns at 65c

Trimmed with three rows of Valenciennes lace both on front and back; finished with beading and ribbon and have fine pearl buttons. A number of styles to select from; all daintily made.

\$3.00 Nainsook Corset Covers at \$1.98

Made of a fine quality nainsook, prettily trimmed with fine insertions and embroidery; finished with ribbon heading, and are the highest-class garments, usually sold at \$3.00.

\$1.25 Nainsook or Cambric Drawers at 75c

Square or "V" shape yokes; four styles to select from, trimmed with fine ticks, hemstitching or lace insertion. Every garment correctly finished and amply proportioned.
